

DY-JXH-4 Four-channel junction box

Features and uses

JXH multiplex junction box, aluminum alloy shell, good interference resistance, dedicated for waterproof sealing joint, cover waterproof rubber gasket, waterproof and dustproof; easy and convenient assembly and debugging, high reliability; sensitivity matching adjustment mode, each output can be balanced to prevent damage of induction lightning and surge signal.

outline dimension

technical parameter

Technical indicators	qualification	unit
Multidirectional input	0-20	mV
Single-way output	0-20	mV
accuracy	$\leq \pm 0.1$	%F·S
Power supply voltage	12、24	VDC
Working temperature	-20~85	°C
Protection level	Ip67	

mode of connection :
